1. Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Geissler on November 20, 2006.

The application has been amended as follows:

Claim 17-18 has been cancelled as drawn to non-elected invention.

Examiner's Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: claims 1-16 are allowed because the prior art fail to teach a method for determining an interior temperature based on a value for incident sun radiation recorded with a photo sensor and/or a surface temperature at a measuring area recorded with a temperature sensor, wherein air circulation in front of the measuring area is determined, which, is weighted as a variable heat-transmission resistance, and is entered as a correction value into the recorded incident sun radiation, wherein from the difference of a first response as compared to a second response the presence or absence of air circulation is determined, which determination is utilized for determining the interior temperature based on the correction value, in combination with the remaining limitations of claims 1-16.

Art Unit: 2859

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.
